PROFESSIONAL SUMMARY

Results-driven Full Stack Java Developer with hands-on experience building and deploying end-to-end web applications using Java, React, JSP, Servlets, JDBC, and MySQL. Proficient in relational database design and responsive front-end development with HTML5, CSS3, and JavaScript. Seeking a software developer or full-stack developer role to apply strong technical skills in a collaborative and growth-focused environment.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C++

Frontend Technologies: React.js, HTML5, CSS3

Backend Technologies: Java Servlets, JSP, JDBC, MySQL, Core Java

Developer Tools: VS Code, Eclipse IDE, MySQL Workbench, Git, GitHub

PROFESSIONAL EXPERIENCE

Full Stack Java Developer Intern

September 2025 – February 2026

Orbit Cybermetrics Pvt Ltd | Hyderabad, India

- Developed and maintained Java-based web applications using Servlets, JSP, JDBC, and MySQL, delivering full-stack functionality from UI to database.
- Implemented secure user authentication features including login, registration, and session management, following Java security best practices.
- Designed and integrated MySQL database schemas to support dynamic data operations, improving data retrieval efficiency.
- Collaborated on end-to-end development lifecycle including requirement analysis, coding, testing, debugging, and deployment.
- Gained practical experience with MVC architecture, writing clean and modular code across frontend and backend layers.

PROJECTS

Varahi Overseas Consultancy Website

- Designed and deployed a full-scale consultancy web platform to streamline student onboarding, service discovery, and lead generation.
- Built a responsive, mobile-first UI with React.js and Tailwind CSS, ensuring cross-device compatibility and optimized navigation.
- Implemented form validation and backend data collection workflows that reduced user inquiry drop-offs.
- Delivered a production-ready website accessible at: https://share.google/N9xAOhgHVLiK5zkw5

Yashoda Hospital E-Commerce Clone

- Developed a full-stack clone of the Yashoda Hospital platform replicating core layout, navigation, appointment booking, and service catalog features.
- Engineered a responsive frontend with HTML5, CSS3, and JavaScript ensuring seamless cross-device UI/UX experience.
- Built server-side logic using Java Servlets to handle dynamic requests, user sessions, and application workflows.
- Designed and integrated a MySQL relational database to securely store and manage patient appointment requests and department records.

EDUCATION

B.Tech in Electronics and Communication Engineering 2019 – 2023

Brilliant Institute of Technologies | GPA: 6.25 / 10.0 | Graduated: 2025

Intermediate (MPC) – Class XII 2017 – 2019

Sahasra Junior College | GPA: 7.4 / 10.0

Secondary School Certificate (SSC) – Class X 2017

St. Paul's High School | GPA: 8.2 / 10.0
